

DOG CARE

DOG FOOD

Dogs need to be fed everyday. They rely on us to feed them and keep them healthy and happy.

Dog food is the best option for your dog.

WATER

Providing fresh water for your dog everyday is very important.

In hot weather dogs can become very thirsty and even can die if water is not provided.

Say No to Snow

Dogs need more than snow to meet their daily water intake. Giving fresh water to your dog even in the winter is important.

Allowing your dog to drink only dirty water can make them sick.

 A dog is an unhealthy weight when you can see their ribs and back bone. Dogs that eat really fast are very hungry and may need extra food every day.

RECOMMENDED DAILY FEEDING CHART		
Up to 15 lbs.		1/2 - 1 cup*
16 to 25 lbs.		1 - 1 1/2 cups*
26 to 40 lbs.		1 1/2 - 2 1/2 cups*
41 to 60 lbs.		2 1/2 - 3 1/2 cups*
61 to 80 lbs.		3 1/2 - 4 1/2 cups*
81 to 100 lbs.		4 1/2 - 6 cups*
Over 100 lbs.		Feed 6 cups + 1/2 cup* for each additional 20 lbs.

FRIENDS FOR LIFE

Be a Friend to Your Dog

Dogs want to be apart of a family. Spending time everyday with your dog helps your dog be a friend to you. A dog that is your friend will be a protector for you and your family.

SHELTER

All Dogs Need a Place to Call Home

All dogs need shelter to keep warm. A good insulated dog house is an option.

Having your dog sleep in the house with you is another option. Most dogs enjoy sleeping in the house with their family.

SAY NO TO BULLYING

Being **mean** or **bullying** a person or animal can lead to consequences. With a dog it may mean they may bite.

Be kind to all living things people and animals.

Dogs can get frost bite like people. Small dogs and short haired breeds like pit bulls should live in the house with you. They don't grow enough hair to stay warm in the winter.
