

NITHA COVID-19 Vaccine Rollout Script – Version #2

*“Hello, I am _____ of the _____
and I’m here to talk to you about COVID-19 and how to keep your loved
ones safe”*

The COVID-19 Vaccine has arrived in our communities. Our community health care providers have been working diligently to protect members against COVID-19. Now that the vaccine has arrived, they hope to continue to keep us safe by immunizing our health care workers, elders and all those over the age of 50. I believe the vaccine is safe and will save lives. We will soon get more vaccines, but for now COVID-19 is still a health threat. We all need to do our part to protect our families and communities by following public health guidance:

- **Wash hands often and wear a mask in indoor public places**
- **Stay 2 meters apart and avoid gatherings**
- **if you have symptoms of COVID-19, please get tested and stay home.**

“We encourage you to get vaccinated. Together, we can keep each other safe. To learn more about the best ways to protect yourself and others and get the facts about vaccines please visit Canada.ca/coronavirus or call 1-833-784-4397.”
