

ARE YOU PREGNANT OR TRYING TO BECOME PREGNANT?

Did you know?

- Syphilis can cause serious problems for your baby, like miscarriage, premature birth, stillbirth and death after birth.
- Signs and symptoms may not be present.
- Syphilis is completely preventable and curable.
- **Ask your partner to get tested and treated for syphilis.**

For more information or for testing information, please call or visit your local community health centre or health care provider.

CONGENITAL SYPHILIS (CS)
