The Northern Inter-Tribal Health Authority (NITHA) is the only First Nations Organization of its kind in the country. The organization is comprised of Meadow Lake Tribal Council, Lac La Ronge Indian Band, Prince Albert Grand Council and Peter Ballantyne Cree Nation and each has extensive experience in health service delivery. Formally established in 1998, the Partners joined together to create NITHA to deliver a service known as Third Level. NITHA provides services directly to the Multi-Community Bands and Tribal Councils in the areas of disease surveillance, communicable disease control, health status monitoring, epidemiology, specialized program support, advisory services, research, planning, education, training and technical support. Our environment is friendly, cordial and team-oriented and our operations are evolving to meet the needs of the Partnership.
